

# 12m Amphibian Landing Craft

## ALC12

12m Amphibian landing craft.

## A 12m Aluminium Amphibian LC

Harbour Maintenance – Dive Support – Crew Transfer – Survey, Drying areas of operation

PDL Marine are proud to present the 12m Amphibious landing craft.

With some great design skills and engineering, the 12m Amphibian really is a unique vessel. The predecessor to the 15m variant, it still has a good deck carrying capability in wheeled and 'float mode' and the ability to cover most terrains despite the tide status. Fitted with a wide array of equipment, this vessel is suitable for a multitude of tasks such as cable and buoy maintenance, harbour works and support, survey work and dive support.

The vessel can also be fitted with seating for up to 14 personnel and has sufficient speed to operate as a crew transfer vessel.

Capable of using inboard or outboards the vessel is able to reach speeds up to 26 knots.

The vessel is built to MCA category 2 / 3 standards.

Other equipment includes but not limited to:

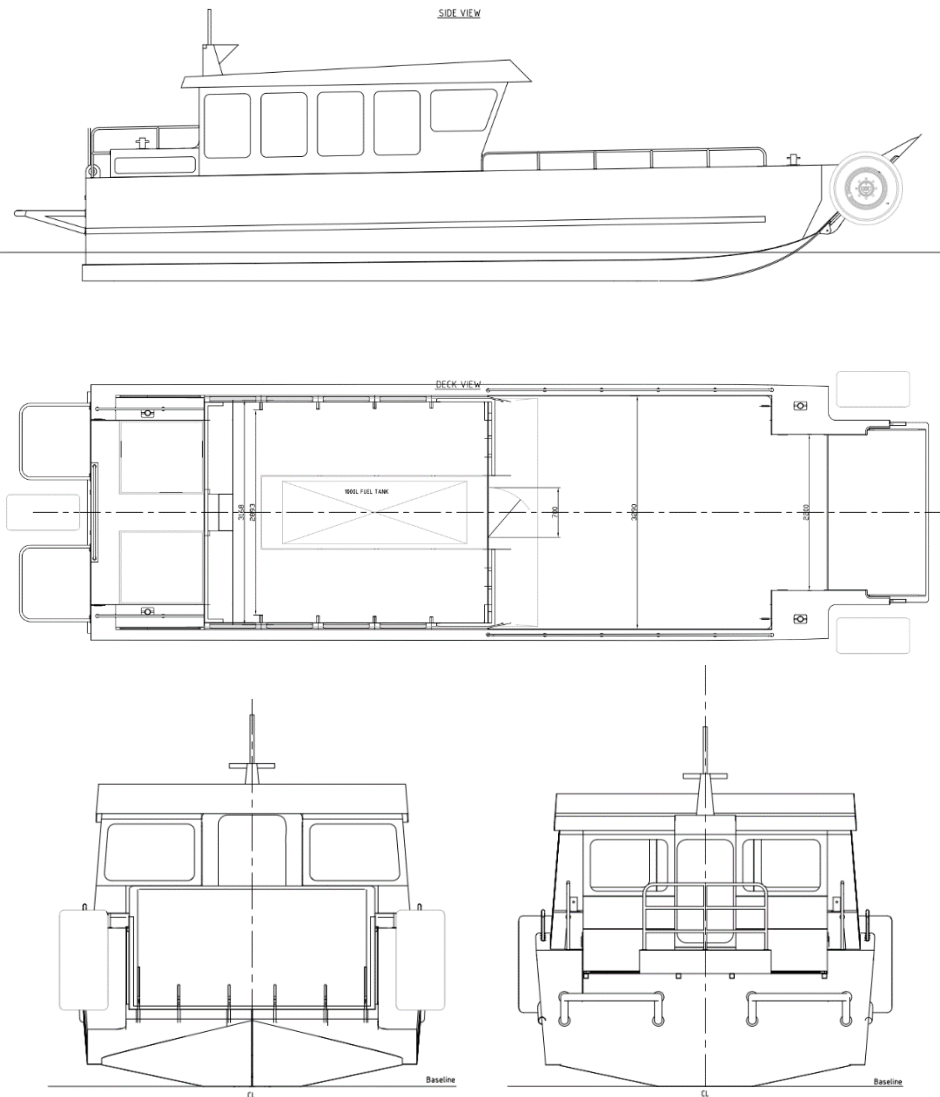

Deck winches

Capstans

Accommodation and Galley, heads available.

For further information contact a member of the PDL team

# 12m Amphibian Landing Craft

Length Hull	11.00 m
Length Waterline	11.00 m
Length Overall	11.80 m
Beam Hull	3.597
Draft	0.51 m

Power inboards or outboards including jet drives

Service Speed 18 Knots

Maximum Speed 26 Knots

Additional power available.

Fuel Oil 2 x 500Litre tanks

Fresh Water 100 Litres

Black Water 100 Litres

Deck Cargo 5000Kg / wheeled 2,000kgs

Crew 2

Passengers 14 (this variant)

Deck Crane Hydraulic Knuckle-Boom

A Frame None

Capstans x4

Crew room, heads, galley, accommodation.
